---

Your donation to the Seneca Development Organization will help to fund projects and goals established through our participation in the Illinois Department of Rural Affairs MAPPING Program.

The MAPPING Program established goals for Seneca such as cleaning and beautifying the I&M Canal, installing decorative street lighting in the downtown area, the purchase of land in the downtown to make green space and more readily available parking for downtown activities, and numerous other goals to help make Seneca a better place to work and live.

If you would like to make a donation toward a particular goal or project, please contact Michael Ellis, Chairman of the Seneca Development Organization at 815-357-6144 or [mnellis@ellisacehardware.com](mailto:mnellis@ellisacehardware.com).

A receipt for your donation will be sent to you once we receive the payment. If you have any further ideas, suggestions, or talents to lend to the organization, please contact us for more information.

Thank You for taking the time to donate to a great new organization for the Village of Seneca.
